

## HOW IT WORKS

# THE ORDERING PROCESS

## 5 STEPS TO A TRAILER KIT

- 1 As the fleet operator, you contract a repair job and the reference to the BPW and PE fleet upgrade programme to your garage.
- 2 Using the VIN and axle number, the garage identifies the axle(s) to be replaced and decides on the extent of the repairs.
- 3 The parts are ordered from the affiliated trading partner, citing the VIN and axle number.
- 4 The retailer uses the ordering portal for the fleet upgrade programme, [order.trailer-kit.com](http://order.trailer-kit.com), to order the appropriate trailer kits using the retailer log-in.
- 5 After the order has been reviewed, BPW and PE promptly deliver the trailer kits directly to your garage.

DIFFICULT TIMES?

## WE'RE HERE TO HELP

Coronavirus has hit the transport business hard and caused lasting damage to the economy. The effects of the pandemic and the uncertainty about what will happen next are also causing decisions about essential investments to be put on hold in the transport industry, for instance when it comes to new vehicles or maintenance.

As a committed international mobility partner, we continue to be there to support vehicle operators in difficult times. That's why the BPW Group has launched the fleet upgrade programme and put together spare parts packages that truly keep your vehicles on the road for longer – and come with unbeatable terms.
